ARROWWOOD, ALTA., AUGUST 10, 1933

Subscription \$2.00, U.S.A. \$2.50

## "Little Orphan Annie" Now Screened as Comedy Drama

Little Orphan Annie, with Mitzi Green in the title part, features also that fine veteran May Robson. It is truthful, straightforward, gripping comedy drama with a bright strain of optimism all the way through. The story, essentially human, deals with the heroic attempts of one little orphan to care for another—to make him to be a good boy, to find him a good home.

As Little Orphan Annie, Mitzi Green makes her bow as an actress of real dramatic talent. There is little of the mimic in her work, no strained reaching after effects dependent upon her ability to ape the mannerisms of Chevalier or one of the Two Black Crows. Here Mitzi plays an emotional part like the real trouper she is.

Little Buster Phelps, as Annie's protégé Mickey, is as sweet a little fellow as ever tugged at a heart string. He has an important part and he plays it to perfection. He and Mitzi are an ideal pair, deserving of future work as a screen team.

There are other children in the cast, lots of them. Adults, too, particularly May Robson in the dominant grown up role as the rich foster mother, She and Mitzi and Buster—and the dog Sandy—are the picture. Don't fail to attend, Friday, Aug. 11th.

## NOTICE

to customers of town well — by paying cash you save half your money..

## 'Little Orphan Annie'

The Comic Strip Sweetheart of Millions, in a human-story bursting with laughter and tinged with a tear! Based on the comic strip by Harold Gray.

## ARROWWOOD THEATRE

Thursday, August 11th

Here's a story that has the same heart-touching idea that made the cartoon strip from which it is built a success—the story of a brave little orphan girl fighting her own battles in life with a blend of impudence and helplessness that makes every one her partisan; the reaction of which adventure is absorbing to children and grown-up alike.

## USUAL COMEDY

8.30 p.m. Adults and High School Students 25c, Children 15c

## Queenstown Notes

Miss Frances Lewis of Bedington is visiting Mrs. W. F. Mellett.

Master Gordon Bartch of Majorville has been visiting at the home of Mr. O. Tott.

The local Jr. U. F. A. entertained the Arrowwood branch of our swimming pool Sunday afternoon. Waffles and ice-cream were served in the evening.

Mr. R. Asselstine motored to Burdette on Sunday and was accompanied home by Mrs. Asselstine and Nellie who have been visiting relatives there.

Mr. and Mrs. Jack Cameron left on Monday for Innisfail where they will take over his farm. On Saturday afternoon the ladies of the town gathered at the home of Mrs. O. Tott to say Good Bye to Mrs. Cameron and presented her with a dainty manicure set as a parting gift.

Gus Hegland left last week to attend branch school in Calgary.

Born—to Mr. and Mrs. C. Ferguson on Aug. 6th, a daughter.

## Mossleigh News

Mr. and Mrs. Ed. Hanson left for Edmonton on Monday having been called because of the illness of Mrs. Hanson's sister Mrs. O'Leary.

The ball game on Sunday between Mossleigh and Red Cross was a decided victory for Red Cross.

Mr. Bulman left with his truck on Monday having taken a gravel hauling contract on the Edmonton trail.

On Monday evening a shower and farewell party was given to Mr. and Mrs. Jacob Bethel at the Farrow United Church. An interesting program was provided. One feature being a talk by Miss Evelyn Mallinger on her recent visit to Chicago World Fair. Mr. and Mrs. Bethel leave on Thursday for their new home at Innisfail.

Don't forget the big dance on Thursday Aug. 10th. Len Davis music.

Sunday School Teacher—"And then it rained for forty days and forty nights." The bright pupil—"And were the farmers satisfied then teacher?"

## The Daily Vacation Bible School Closes

The Daily Vacation Bible School in Arrowwood came to climax in the Sunday night program. For ten days, each forenoon, the boys and girls of the town and surrounding community had been studying and learning. The growing attendance and the regularity of the pupils were evidence that the children truly enjoyed the work.

Ninety-eight pupils were enrolled. The average attendance was 78. The growing interest was evidenced by the fact that the average attendance the second week was 86. Most of the children were present Sunday evening and the town gathered at the home of Mrs. O. Tott to enjoy the presentation of hymns, gospel songs, scriptures and character dramatizations. Everything was given entirely from memory.

Much credit is due the teachers in the various departments, and all their assistants, for the success of the school and the interest of the pupils.

The following program was presented: Processional, "With Happy Voices," Intermediates, Song, "O Worship the King," Congregation.

Song, "Good Evening," Beginners. Song, "This is God's House," Beginners and Primaries.

Song, "The Lord is in His Holy Temple," Juniors.

Song, "Hail Into His Gates," School.

Response, Song, "Holy is the Lord," Primaries.

Scripture, Rev. 4, 6, 8-11.

Song, "Holy, Holy, Holy, Lord, God Almighty," Intermediates.

Memory, Scripture Lesson, Rom. 12:14-21, Intermediates.

Prayer Song, "Father, We Thank Thee," School.

Prayer.

Departmental.

Beginners—"This is the Way," "Praise Him;" Story, "How God Cared for Elijah," David Shouldice.

Primary—"He Loves Me Too," Ten Commandments: "Can a Little Child," Junior.

Junior—Scripture, Psa. 23; Song, "No, Not One;" "Books of the Bible;" Dramatization by the Boys, scenes from Life of David; Dramatization by the Girls, Baby Moses.

Intermediates—Scriptures, I Cor. 13; Song, "For the Beauty of the Earth;" Dramatization, "Conversion of Saul."

Address—Rev. Mr. Wiend, Announcements.

Offering.

Song, "I Am So Glad."

Song, "Children of the World."

Song, "I Have a Joy."

Song, "You Can Smile."

Song, "Little Children Praise the Lord."

Benediction.

Recessional.

## Lethbridge and Vulcan C. E. Societies Camp at River

During the past ten days about thirty young people, members of the Christian Endeavor Societies of Lethbridge and Vulcan, have been camping at the river above the bridge. They report a very enjoyable and thoroughly educational time and believe the river valley near Arrowwood an excellent location for a district camp. We will be glad to welcome them another year.

## U.F.W.A. Meets at the Home of Mrs. D. McInenly

The U. F. W. A. met at the home of Mrs. D. McInenly on Wednesday, Aug. 2nd.

Mrs. McBride read the report of the convention and Mrs. M. H. Ward read the report of the Jr. U. F. A. convention in the absence of Miss Alma Connell the delegate.

It was decided to dispense with the August meeting on account of harvest operations. The remainder of the afternoon was spent in community singing.

Mrs. D. Richards and Mrs. M. DeWitt assisted the hostess in serving a dainty lunch.

## Arrowwood Market Prices

1 Northern	59 1/2
2 Northern	57
3 Northern	54
Oats	
2 C.W.	27 1/2
Barley	
3 C.W.	33
1 C.W.	118 1/2

## Calgary Quotations on Livestock

Steers—	Good and choice \$3.50
Hedders—	Good and choice 3.00 - 3.25
Cows—	Good 1.75 - 2.00
Sheep—	1.75 - 2.00
Hogs—	5.00
Select bacon	5.00
Bacon	5.10
Butchers	4.00

Annie and Mickey and Sandy the dog—young or old, you will laugh with them! Cry with them! Love with them! Usual prices and time, Friday night.

## Buffalo Hill News

Mr. R. A. McIvor has been engaged to teach in the Buffalo School next term.

Agnes McInenly is spending a week in Arrowwood, visiting with Grace and Freda Board.

Miss Violet Earl returned home on Tuesday after visiting in Calgary for two weeks.

Miss Inez Shatto has returned home after spending two weeks in Arrowwood.

Mrs. E. Stinson and three daughters, Edna, Vera, and Norma of Carleton Place are staying with Mrs. D. McInenly.

Mrs. Myrtle Earl is at present in the Calgary hospital, having undergone an operation for the eyes. The latest news is that she is progressing well.

Mrs. Hirst Goldthorp and returned home last Friday from a ten days' visit at Banff, Cranbrook, B.C. and other beauty spots. They report a pleasant trip.

Repairs are being made to the fence, etc. around the Buffalo School and the interior of the building will have received a fresh coat of paint by the time school opens on September 4th.

## Arrowwood Notes

Cucumbers for pickles, Call 108.

Mr. and Mrs. W. Ward were Calgary visitors of Tuesday.

Floyd Cary is visiting with friends in Bassano this week.

Larsen Implements sold a mover to the Canada Land and Irrigation Co. this week.

Mr. and Mrs. G. Palfrey of Purple Springs, visited Mr. and Mrs. A. Phillips last week-end.

Mr. W. H. Ellis and Mr. C. Melvina were visitors to Calgary last Thursday.

The Misses Adams, of Bobcaygeon, Ont. are visiting with their cousin, Mrs. W. Steiner.

Miss A. Melrose of the Brooks teaching staff, who had been visiting with Mrs. G. Leith, left last Friday for Calgary.

Miss Mary Dumka returned on Sunday from East Coulee, where she had been visiting her brother.

Mr. and Mrs. Geo. Fargenson of Delta spent a few days visiting relatives in Arrowwood last week.

Miss Edna Beagle is spending a few weeks visiting her sister, Mrs. John Mackie, near Carleton Place.

Miss Wills Leith returned on Tuesday evening from Carleton Place, where she had been visiting with relatives.

Mr. and Mrs. D. J. Beagle and little son, Johnnie, spent Friday visiting at the home of their daughter, Mrs. J. Mackie, near Carleton Place.

"Little Orphan Annie," at the Arrowwood Theatre, Friday, Aug. 11th. There's no age limit, young or old, if you're human, you will like it.

The Resource extends congratulations to Malcolm Taylor on the splendid results of his year's work in Grade XII at Banff. He successfully passed ten subjects, obtaining an honor average of 75 per cent.

The work on the park accessories planned by the Village Council and the Community Club was started on Saturday. The tree-planters are already up and work on the swings is to follow.

The draw for the ham donated by J. Hesketh, took place last Saturday evening. The proceeds of the sale of tickets are to be used in aid of the swimming pool. The lucky ticket was number fifty-one, held by Mr. E. D. Archambault.

A party consisting of Miss Vivian Martin, Mr. and Mrs. K. Martin and Earl Larson returned on Sunday from a two-weeks' vacation through the mountains, visiting at Banff, Lake Louise, Waterton Lakes and other beauty spots on their route.

## Demonstration Program at Mossleigh on Sunday Afternoon

Several Arrowwood ladies are conducting a Daily Vacation Bible School this week in the school house in Mossleigh. The children will give a demonstration program at 3 p.m. Sunday. The parents and other people of the community are invited to be present for this program. Some of the Arrowwood children are expected to be present to help in the program. All children who attended the Vacation Bible School in Arrowwood are invited to be present and help in this service at Mossleigh on Sunday afternoon.

Born — At Mrs. Lewendon's Nursing Home, on Sunday, Aug. 6th, to Mr. and Mrs. Chris Ferguson, of Queenstown, a daughter.

Larsen Implements sold and delivered two combines last week, one to Mr. L. H. Irwin and one to Adair Bros., of the Mossleigh district.

The more grown-up you are the more you will like the winning charm and sparkling wit that has endeared "Little Orphan Annie" to millions. Arrowwood Theatre, Friday night.

Mr. and Mrs. Grandlund and son of Hussar were visitors at the home of Mr. and Mrs. A. A. Clifford on Sunday.

Mr. Jim Mackie returned to Arrowwood on Sunday from Didsbury.

Mr. and Mrs. H. P. Gregg of Calgary were visitors at the home of Mr. and Mrs. D. R. M. Shouldice on Wednesday.

Mr. W. C. Lyle reports a curious and seldom seen sight, Last Saturday about 10.30 p.m. a full rainbow resplendent in all its colors was easily discerned in the northern sky.

For the person who has a bout him what John Burroughs calls "Sharp Eyes," nature has many beautiful sights in store.

## WEDDINGS

### Johnson-Horning

The marriage was solemnized at St. Barnabas Church, Calgary, on August 7th, of Isabelle Jessie Horning and Chester Clifford Johnson.

### Brubaker-Ellis

The marriage was solemnized at the Church of the Brethren, Arrowwood, on August 4th, of Winifred Ethel Ellis and John I. Brubaker. Rev. J. H. Brubaker officiating.

## IRVINE'S SERVICE GARAGE

Auto, Tractor and Truck Repairs

Tire Repairs, Battery Repairs

Gasoline, Oils, Greases

Goodyear Tires and Tubes

Irvine's Service Station, Mossleigh

## Now on it

### Nature's Laws

In these days much is said and written on the subject of planning—farm planning, industrial planning, social planning, financial planning. Economists, both those who have made a life study of economic principles, trends and problems, and those who assume to speak on economics but have only a superficial knowledge of the subject, are talking and writing on the subject of planning. Governments the world over are engaged with the subject, and world conferences are wrestling with it. As a result, people are confused with the multiplicity of ideas advanced, as in the majority of cases, one set of ideas is contradicted by another set.

However, out of the confusion, there has come the suggestion that nations everywhere should reverse the process they have been following of increasing and expanding production and proceed to curtail production. So we are told, farmers should reduce the acreage they are planting to wheat and cotton and coffee; miners should mine less copper, iron, silver, zinc and tin; smaller quantities of oil should be pumped from the bowels of the earth; fewer fish should be caught; less timber cut; smaller quantities of manufactured articles turned out.

The suggestion is an absurd one. The population of the world is steadily, even rapidly, increasing, and people want more of everything, not less. Why then produce less to meet their needs? The problem that calls for solution is not that there is too much wheat in the world, or that too much of it is being produced annually, but that certain countries for purely national reasons are denying to their people the right to import wheat and in so doing are denying to them the privilege of cheap bread. And what applies to wheat, applies in varying degrees to all other products and commodities.

Nature with her immutable and inexorable laws has a way of controlling production. In the year of 1916 when the story of huge wheat surpluses was heard on every hand, Nature stepped in and reduced the wheat crop of the United States by two hundred million bushels, and struck ten of millions of bushels off the Canadian crop; and reduced the yield in other countries. Drouth, and hail, and grasshoppers, and locusts, and locusts, and locusts, and as the result of wheat did not produce more wheat than its inhabitants require.

Suppose the acreage sown to wheat, for example, was arbitrarily curtailed by order of government. Farmers would be obliged to summer-fallow the land not needed to prevent it becoming infested with weeds. It will be acknowledged that the more carefully and intensively the land is worked and cultivated, the greater the production per acre. Consequently, the more certain result would be that larger acreage would be obtained, and the reduced acreage in crop would be offset to a considerable extent by the heavier yields. Therefore, even assuming that less wheat should be produced, reduction in acreage sown might not solve the problem. But the fact is admitted that there would be an economic saving to the farmer in increasing his yield per acre and sowing fewer acres. Possibly farmers should have followed this suggestion in the past, and should do so in the future, but not with the object of raising less wheat, but better wheat and more of it per acre at less cost to himself.

And if man decided in his wisdom, or lack of it, to greatly reduce the production of wheat in any one year, Nature might theories in store to force certain of her laws to bring about a reduction, with the result that man might easily find himself in dire need. Or Nature might offset the puny efforts of man and order climatic and other conditions which would more than offset all man's efforts to lessen production.

Man stands impotent when drouth comes and day follows day without rain; he is powerless when hail hails his grain crops to the ground; he can wage but a futile battle when grasshoppers and other pests swarm over his land; he can do nothing if a blighting frost destroys. But Nature has her own ways and methods of control. When grasshoppers increase, a parasite develops which ultimately destroys the hoppers; when rabbits become unduly numerous, disease takes them off. Man may wage war against this or that, but he may plan and seek to control, but in the final analysis Nature directs and controls.

There are men who in this day and generation propose to plan and control practically everything which Nature has decreed. They demand, of the survival of the fittest, are absolute, and should be ignored, or overcome. These things, they say, are merely the laws of the jungle, which should have no place in the human world. But the laws of the jungle are Nature's laws. The jungle Nature rules supreme, and it is a jungle because no attempt is made to interfere with Nature.

Man may, and can, and does control some of the powers of Nature. Working with Nature he can control about many things, and may even control Nature in some of its aspects and workings. But with many of Nature's laws and workings, man can exercise no control whatever. He cannot lengthen or shorten the seasons, he cannot determine the weather, he cannot order the earth to bring forth bountiful crops in year and less than normal crops next year. And he better not try to do it.

The real trouble with the world today is that man has tried to control Nature's law of supply and demand by setting up an intricate network of man-made restrictions, obstructions, barriers, prohibitions, which interfere with the natural working of that law. As a result man has put himself into a huge spider's web of his own making in which he is struggling in futile fashion. He can only free himself by further defying and interfering with Nature, but by destroying the web he has woven to his own undoing.

### May Lose Status

A special despatch from London to the New York Times says: Newfoundland will temporarily lose her status as a self-governing colony if the British government approves the report of Lord Amulree's commission, which was recently sent to investigate the island's financial plight.

The newest German electric fans have rubber blades which are said to be harmless if accidentally touched.

## Any Looseness of the Bowels Is Always Dangerous

When the bowels become loose and diarrhoea, dysentery, summer complaint and other bowel troubles set in, immediate attention should be given and the diarrhoea checked before they become serious.

To check those unnatural discharges there is a remedy in Dr. Foster's Extract of Wild Strawberry, remedy that has been on the market for the past 88 years. It is rapid, reliable and effective in its action. A few doses is generally all that is required to give relief.

Get it at your drug or general store; put only up by The T. Millspaugh Co., Limited, Toronto, Ont.

### Canada's Taxed Property

Total Taxable Real Estate Is Assessed At Eight Billion  
The total taxable real estate in Canada was assessed at \$8,222,260,000, according to reports received by the Dominion Bureau of Statistics, for the year 1932.

Another \$1,500,000,000 of assessed property was exempt from taxation, consisting chiefly of Dominion, provincial, and municipal property, and educational, charitable, and religious institutions.

Quebec led with \$705,788,000 of exempted property. Ontario, \$336,330,000; Manitoba, \$156,794,000; British Columbia, \$149,770,000; Nova Scotia, \$48,119,000; Prince Edward Island, \$1,828,000. The returns from New Brunswick, Saskatchewan and Alberta do not show the amount of the non-taxable property.

The total taxable valuations in Canada were \$4,723,110,000, of which Ontario had \$2,183,152,000; Quebec, \$2,223,478,000; Saskatchewan, \$1,134,461,000; British Columbia, \$688,096,000; Alberta, \$585,745,000; Manitoba, \$507,103,000; Nova Scotia, \$172,218,000; New Brunswick, \$153,566,000; Prince Edward Island, \$39,300,000.

taxable real property, amounting to \$8,222,260,000, was distributed as follows: Ontario, \$2,181,743,000; Quebec, \$2,210,943,000; Saskatchewan, \$1,089,729,000; British Columbia, \$688,096,000; Alberta, \$579,960,000; Manitoba, \$509,012,000; Nova Scotia, \$172,218,000; New Brunswick, \$153,566,000; Prince Edward Island, \$39,300,000.

### Aquarium That Is Different

Queer Fish Kept In Refrigeration Rooms At Port Of Seattle

In a room at the Seattle Aquarium, believed by officials to be the only one of its kind, strange fish from many waters starve at thousands of visitors. The aquarium was not planned, it just grew, Harry E. Larson, of the port of Seattle, explains, until it is becoming world famous. One day a fisherman, returning in a strange fish and wanted to hang it up in the refrigeration rooms. There another caught a different variety. So it is in the aquarium. There is now a collection which has attracted as many as 1,500 visitors to the plant in a single day. They have a temperature of ten degrees below freezing to walk through the corridor lined with ice-encased rarities of the deep.

### Rewarded For Kindness

Welsh Girl Receives Legacy For Helping Old Lady

An old lady of Swansea who lost her money while travelling fifteen months ago met a girl, 22, at Cardiff Railway Station and told her of her difficulty. The girl lent her 10s. The money was returned by post shortly afterwards.

A few days ago the girl, Miss Jean Davies, a pretty brunette, engaged at a shop assistant at a hairdresser's in Postyrdy and living at Senghedydd, received a solicitor's letter. The latter informed Miss Davies that the old lady had died and left her £3,000.

### Proves Value Of Advertising

Reading Newspaper Ads Often Creates Desire To Shop

The value of newspaper advertising to shoppers and advertisers alike was shown at St. Louis, Montana, in a survey conducted by advertising students of local vocational schools.

Of those interviewed, 1,280 out of 1,545 said they generally read newspaper advertising before planning a shopping trip. Of the 1,280 interviewed, 1,100 said they had a desire to go shopping when there had been no plans to go.

### For Safer Flying

Device Lands Passengers Safely From Disabled Plane

A device which ejects passengers from disabled cabin aeroplanes and lowers them safely to the ground with parachutes was demonstrated successfully at Roosevelt Field, New York, before a group of airline officials and prominent aviators.

At 150 feet, less than is considered safe for a parachute jump, eight inmates were dropped successfully from a test plane then two parachute jumpers were dropped from 1,000 feet.

### London Police Versatile

London policemen, who already must have a practical knowledge of swimming, can diving, swimming and life saving, are now to be trained as firemen, so that they may be equal to the task of rescuing persons from burning buildings.

### SWAM NIAGARA RAPIDS

Without knowledge of the danger William Kondrat (above), attempted to swim from the American side to the Canadian shore of the Niagara River below the famous falls. Unfortunately he was carried into the whirlpool and was compelled to swim out the rapids and whirlpool. His safety. This is a feat never before accomplished.

### Slated For Retirement

Chief Of Naval Staff Has Had Distinguished Career

The Ottawa Journal, in a newspaper story said Commander Walter Hoad, chief of the naval staff, department of naval defence, is slated for retirement to be succeeded by Commander Percy Walker Nelles, who is at present in England.

Connected with the Royal Canadian Navy for 22 years, Commander Hoad has had a distinguished career. He is in his 58th year.

In 1919-20, he was superintendent of Halifax dockyard and first accepted service under the Dominion Government in 1911. For a time he was captain of patrol.

When Commodore Hoad joined the Canadian service he was a retired captain in the royal navy. On August 14, 1932, he was made a commodore, 1st class. During the Great War he was mentioned in despatches and in 1920 was made a companion of the British Empire (military).

### Traditions Being Shattered

Rugby School Will Prepare Boys For World Of Industry

One of the most famous public schools to be away from its ancient academic traditions to give some of its pupils a "finishing course" which will prepare them for the conditions they will find in industry and business.

P. H. B. Lyon, the Rugby headmaster, said in a disclosure at Speech Day yesterday.

"For the first time," he said, "we are to make a serious attempt to cater for the boys who are not going on to the universities."

"We are going to bridge, in their last year, the gap between the school and the world of industry or commerce."

"Changes will be made in the curriculum next year for this purpose."

### Would Eliminate Sums

Sums may disappear like magic today, according to Sir Ernest Brown, former lord mayor of Manchester, at a conference of the Association of Technical Institutions in Manchester.

He said a Liverpool chemist, who was an idealist and probably was looking forward a generation or so, had told him that chemists were able to produce a synthetic material to build houses so cheaply and of such beautiful design that sums would automatically disappear.

Artificial flooding has enabled a steamer to pass the Desnair Falls, in Russia, for the first time, and the entire length of the River Desnair is now navigable.

It is estimated that if dental fillings in America alone were all handled as gold jobs, the gold used in two years would be more than all the gold lost in the shipwrecks of history.

There are desert mice that have spines, like a porcupine's, growing from their fur.

Columbia wants to organize and subsidize a company which will establish a national merchant marine.

### Professor Raps Modern

Method Of Education Says Students' Mind Clogged With Dead Matter

Modern methods of education clogs the mind and as the result modern young people are dead conscious, really ignorant, selfish and arrogant, their minds filled with dead matter. This slashing attack on "modern methods" of education was made by Dr. William O'Brien, professor at the School of Organization and Industry at Edinburgh University, Scotland, in an address at the annual conference of the textile industry held in Harrogate, England.

"Modern education tends," Dr. O'Brien said, "to hinder mental development by clogging the mind with dead matter. Education has become too pedantic and in consequence districts had arisen between men interested in education and men interested in industry."

"The idea that education should relieve its recipients of manual labor was prevalent, and it has been strengthened by the evolution of staff appointments mainly dealing with clerical duties. Manufacturers were largely to blame for appointing their managers from the office, rather than from the machine."

"It is distinctly unfortunate that much of the present day educational process is developing a class of young people who do not wish to work in factories, or indeed to work at all. Many liberally educated young people are really ignorant, selfish and arrogant."

"Wherever a man gets above the dead level of bare subsistence he becomes obsessed with the idea that his family should have an easier time than he has had. He fails to see that his hard work has been the reason why his family has any success he has achieved."

### Producing Pulp In Canada

Cord Of Wood Yields A Ton Of Pulp

It is usually considered that a cord of wood will yield a ton of groundwood pulp or half a ton of chemical pulp. This is borne out by the figures of manufacture of wood-pulp for the year 1930, compiled by the Dominion Bureau of Statistics in co-operation with the Forest Service, Department of the Interior. These figures show that 2,283,130 tons of groundwood pulp produced in that year 2,241,265 cords of pulpwood were used and that 2,164,886 cords of wood were required to make 1,076,604 tons of chemical fibre. The average production of pulp per cord of wood used was thus 2,537 pounds of mechanical pulp or groundwood, and 993 pounds of chemical fibre.

### Looking For Sandy Beaches

Stefansson Skeptical and Mounts Search for Beaches  
Sandy and sandy beaches and icebergs will be part of the R.C.M.P.'s arctic patrol the next two years, for as the "Nasopac" sailed recently from the port of Montreal.

The "Nasopac" will be stationed in the polar regions of Canada for the next two years, they had instructions to look for sandy beaches and icebergs. The "Nasopac" sailed, Vilhjalmur Stefansson, famous explorer, wired Gen. T. H. Macbride, commander of the R.C.M.P., asking him to enlist the co-operation of the red-coats, in searching for sandy beaches under the ice. The wire stated that Stefansson had never recalled having seen one, and he wanted to confirm his own experiences.

### Lost Money On 'Plane

Kansas City Pawnbroker Kept \$500 To Take Anywhere

A Kansas City, Mo., pawnbroker, who advertises the "largest pawn shop west of the Mississippi," and who boasts that he has never refused a loan, says anything that he has lost in value was in a quantity recently.

William Herman, Oregon, Mo., was Hurst that he needed \$250 and had a good aeroplane he could put up as security.

Hurst thought the whole thing over, decided he could rent a hangar to keep the aeroplane in and told Herman, by mail, to come get his money.

### Constitutes A Record

For the first time in the records of the Dominion Bureau of Statistics no Canadian wheat was exported from a United States port during the week ended July 14. During the corresponding week in 1932 a total of 400,000 bushels was cleared through United States ports.

Bright red handbags are regie in Germany.

## It's Nice...

## Change Hardly Noticeable

American Inch Unit Now Two-Mill. Longer Less In Length

The American inch unit of measurement has lost two-millionths of its former length in order that precision measuring in the United States and England may be done on the same basis. The new definition of the inch is 25.4 millimetres—a difference of about one-eighth inch in a mile as compared with the former American standard. This minute alteration was made necessary by modern precision manufacturing and the confusion arising from varying standards in the two countries. Gauge blocks now made correct to within one-millionth of an inch. Both the United States Bureau of standards and the national physical laboratory of England will certify industrial gauges on the new basis.

## Test Was Satisfactory

First test of the Dymazon car, three-wheeled automobile built on the stream-lined principle of fast boats, was held at Bridgeport, Connecticut, before 3,000 spectators. With its inventor and designer, Buckminster Fuller at the wheel, the automobile cleared a speed of 70 miles an hour over the one-third mile cement test road at Southe Park.

## "I'm Sorry," said she, "will you let me keep my hair at the office?"

"Will you let you?" he replied. "Dear-sir, I'm depending on it!"

About the first thing a physician does is to examine the patient's tongue—probably to see if it will tell what he is worth.

"LITTELL GIRL"

## SYNOPSIS

Camilla Hoyt, young and beautiful student in an art school, unconsciously attracts the heart of a fellow student during class when she is supposed to be drawing. Greatly surprised, the professor, looking at her sketch, embraces Camilla by having Peter Anson, the boy whose head she sketched, criticize her work before the class. Afterwards Camilla goes to the park outside to cry. A hand touches her shoulder.

## CHAPTER II

"Miss Hoyt," a man's vibrant voice pleaded, "may I apologize? I'm sorry if I offended you in class today."

Camilla dabbed frantically at her tearful eyes with a square of bright blue, then raised her head reluctantly. She could not meet Peter's eyes. "No, if you think I'm crying about that," she finally managed in a husky voice that stung with self-accusation, "you need not trouble to apologize. You presume a lot to think I even remembered it, don't you?"

"Oh—I'm sorry," he hesitated. "But if you are in trouble—that is—may I help you?"

To his amazement and relief, she laughed suddenly and looked up into his face as he bent over her anxiously. Her tear-wet eyes dazzled him, wide and shining like a child's and the tumbled black hair was like a cloud around her laughing face where the sun had just appeared.

A man in livery opened the door and scrutinized him.

"Well, my trouble isn't sketching still-life objects," she said, "but I'm sorry about me, in all right. Just the blue, I guess."

His eyes twinkled with a spontaneous humor and he sat down on the bench beside her. "What kind of blue—Limoges, St. Louis or any particular brand? I might know the cure."

"Just the black-blue, now there's an idea for a new blue song. If your ambition to write a radio hit."

He shook his head, smiling. "I need all my inspiration for clay figures."

"Oh," her voice held awe. "You're a sculptor."

"Well, that's what I want to be. It happens that I've studied with Professor Drake before, and am finishing next month. I only went into this sketch class for critical training."

"No wonder you laugh at us."

"Not at all. You have me wrong. Miss Hoyt, I wasn't laughing at you really."

"Laughing with me, then?"

"Yes. I think it is a beautiful head and I couldn't resist sketching it. Besides, it was right in the way no I couldn't see the old study-object, anyway."

"Who doesn't know? Sure, I'll be seen' you then."

He saluted blithely, turned into the parkway and strode away. But his mind changed to an anxious frown as soon as he was out of Camilla's sight.

Orchestra seats at the Majestic and supper at the Madox club. If he performed famous food and music. He did, if he could afford a preference. But he couldn't. Such an expensive expenditure covered Peter's allowance and expenses for a week or two.

What to do, now? He didn't feel like a dog, as he had been, but he had been forced into it to avoid for two months the sight of Peter Anson, making his own way to a career, long better than that of mixed up with moody girls like Camilla Hoyt, whom it cost a fellow a fortune to entertain? He did. Then, why hadn't he watched his step? Well—that was your going to about it.

When you discovered that Camilla Hoyt was the most adorable and desirable creature in the world and you thought you'd be in it, at the same time you feared her?

Professor Drake had precipitated the avalanche upon him, his coming into the park in tears had been signified him. And here he was, scarcely daring to breathe and wondering how to escape from his new domain.

He shoved his hand into his trousers pocket, knowing that it would encounter only a few pieces of change. He poked his hand into his vest pocket, knowing that a lone five-spot was folded there. It represented his week's allowance for food. He thought he fearedfully to a small deposit in his name at the bank, but there thriffliness and with sacrifice, to meet emergency, Peter smiled meekly. Was this an emergency? It was, and it wasn't. If he could bring his conscience to admit the first thought and deny the second, he could.

By eight o'clock, he had smoothed his conscience, withdrawn half of his emergency fund—he had pledged himself to return at least half of it to the bank the following day, but he had to cash a ticket, didn't he?—rented a tuxedo and a taxi-car, and was ringing the doorbell at the house of the post boy mansion across the park from the art school.

A man in livery opened the door and scrutinized him with practiced caution.

(To Be Continued.)

Danish Capital is Lively

Copenhagen Has Shown No Sign Of Depression

Refreshed nights are seen in Copenhagen, the only one of the world's notoriously sprightly cities which had not become a wilted leaf sprightly since the rainy days of '29.

The Prime Minister, Herr Stauning, sitting in a night club at midnight, perhaps the only prime minister in the world who doesn't allow the cares of state to depress him.

Copenhagen's gallant bicycle parade dashing along Oesterbrogade at 5 p.m. A headless, a dapper army captain in khaki, a mailman with a flashing red coat, two police officers in blue and gold, a half-don pink-checked schoolgirls, a portly woman with a Mexican hairdresser riding in a motor car, a young lawyer, a hansom and yipping at a great Dane on the sidewalk. College students wearing glasses and carrying brief-cases two young ladies highly powdered and rouged.

Tivoli, which in any other country would be just another amusement park, swarming with Copenhageners anxious to waste their money on fortune wheels, and a very attractive booth where one throws wooden balls at plates and soup tureens.

The traditionally lively Copenhageners, dividing their front pages between the sports and the news conference and a sensational murder case, the only law in which seems to be that no one is sure whether a murder or a love case.

The canal at Gammel Strand full of fishing boats and floating fish wells in which swim thousands of flounder and eels. The famous row of fisherman, crumpled skinning live eels and shouting at the noontime customers.

A nail driven into the counter of a hotel bar near Madsen's Bridge, England, indicates the boundary of two counties, and customers on the Buckingham side can serve a half-hour later than those on the Berkshire side.

Peter stood up to cover his confusion. Both the food and the music were of little importance to him. But if those expensive items were the price tags for Camilla's company, he would have to meet them, somehow.

"First I'll run along now and phone for reservations," he attempted elaborate "sanguine." "Shall I call for you at eight?"

"You know where I live?"

## No British-American

Air Service Planned

Concrete Scheme Is Not Under Consideration Yet In England

Conversations have been under way, but no concrete scheme for regular transatlantic air service between the United Kingdom and the North American continent by way of Newfoundland is under consideration at present, said Sir Philip Sassoon, Under-Secretary for Air in the British House of Commons. Sir Philip, a distinguished aeronautical enthusiast, told questions there was no thought at the moment of a visit of an international commission to Newfoundland in regard to establishing of airports for such a service. This corrected an assumption by Geoffrey Le Manver, Liberal.

The British Government, however, had been conferred with the Canadian and Newfoundland representatives in the United Kingdom on certain general lines affecting the possible future organization of air services to and from Newfoundland, the secretary said guardedly.

He added, however, he was not in a position to give more detailed information, although to prevent misunderstanding he would emphasize that the possibility of transatlantic services was at present under discussion.

Speeding in Former Years

Twenty Miles An Hour Drove Fine 33 Years Ago

An issue of Kingston newspaper of the year 1800 tells of a police case in which the late R. W. Folger, a citizen and a horse owner, was fined ten dollars and costs for speeding on the streets with his fast driver. Evidence was given to show that Mr. Folger was driving at a three-minute mile, or at about twenty miles an hour. W. F. Nickle, nephew of Mr. Folger, an elderly man, a young lawyer, defended the accused, and gave notice that he would appeal the decision of the magistrate.

But what a change in conditions! Now automobiles dash through the city streets at rates decidedly in excess of twenty miles an hour, and the police are relatively few and far between for speeding. Thirty-three years ago a great commotion was caused when a policeman in Kingston's leading citizens and a horse owner, was fined ten dollars and costs for speeding on the streets with his fast driver. Evidence was given to show that Mr. Folger was driving at a three-minute mile, or at about twenty miles an hour. W. F. Nickle, nephew of Mr. Folger, an elderly man, a young lawyer, defended the accused, and gave notice that he would appeal the decision of the magistrate.

"Miracle Fountain" Still Flowing

Lightning Brought Water To Georgia

Prisoners 70 Years Ago

The "miracle fountain" of Andersonville, Georgia, is still flowing 70 years after lightning brought water to the wilderness in time to save a multitude of federal prisoners, dying in a hostile land. There is a monument there now, on the scene of American civil war strife. It is a national shrine.

More than 12,000 Unionists died at Andersonville, where there was a stockade in which 45,000, many of them wounded, were herded.

Sanitation was the prison's greatest problem—and the prisoners who looted and slew their comrades. The scarce water supply at Andersonville was contaminated.

August and a relentless Georgia scorched prisoners and their Confederate guards alike. Some prayed; some sang. A black cloud dropped over the stockade and tore away the earth almost in the center of the prison yard. Water gushed from the hole—enough for all. Years after the war somebody remembered the spring and a monument grew around it. The water still flows between the graves and keeps richly green the grass on Bermuda.

The British Government, however, had been conferred with the Canadian and Newfoundland representatives in the United Kingdom on certain general lines affecting the possible future organization of air services to and from Newfoundland, the secretary said guardedly.

He added, however, he was not in a position to give more detailed information, although to prevent misunderstanding he would emphasize that the possibility of transatlantic services was at present under discussion.

Speeding in Former Years

Twenty Miles An Hour Drove Fine 33 Years Ago

An issue of Kingston newspaper of the year 1800 tells of a police case in which the late R. W. Folger, a citizen and a horse owner, was fined ten dollars and costs for speeding on the streets with his fast driver. Evidence was given to show that Mr. Folger was driving at a three-minute mile, or at about twenty miles an hour. W. F. Nickle, nephew of Mr. Folger, an elderly man, a young lawyer, defended the accused, and gave notice that he would appeal the decision of the magistrate.

But what a change in conditions! Now automobiles dash through the city streets at rates decidedly in excess of twenty miles an hour, and the police are relatively few and far between for speeding. Thirty-three years ago a great commotion was caused when a policeman in Kingston's leading citizens and a horse owner, was fined ten dollars and costs for speeding on the streets with his fast driver. Evidence was given to show that Mr. Folger was driving at a three-minute mile, or at about twenty miles an hour. W. F. Nickle, nephew of Mr. Folger, an elderly man, a young lawyer, defended the accused, and gave notice that he would appeal the decision of the magistrate.

## Only Firestone

Gives You All These  
**EXTRA VALUES**

---and at No Extra Cost

Year after year Firestone has led the way in giving car owners extra tire values to save them money. Now Firestone gives you an amazing new guarantee which fully protects you for twelve months against any condition that may render a Firestone Tire unfit for further use as a result of blowouts, cuts, bruises or any other road hazard excepting punctures or running the tire flat.

For this alone it would pay you to buy Firestone—but, in addition, Firestone is the only tire that can give you all these extra values:

**Low Priced Tires.** If you want a low priced but dependable tire, go for the Firestone Oldfield. As good as most first line tires, but costs 20 per cent. less. Made by Firestone and guaranteed for 12 months.

### Additional Locals

Mr. and Mrs. Ray Beagle and family spent Sunday at the C. Williams farm.

Agnes McInenly is spending the week with Grace and Freda Board.

We are pleased to see that Hermion Leith has fully recovered from his recent accident.

There will be a big dance in the Mossleigh Community Hall tonight. Music by the Len Day's Orchestra.

Sunday School was resumed last Sunday morning at the United Church, after a month's vacation.

Dave McColman had the misfortune to break his arm while riding at the Nanton stampee last week.

Mr. and Mrs. McFarlane and family, of Creston, B.C., are visiting at the home of Mr. and Mrs. W. Steiner.

Mr. and Mrs. M. W. Hingeburger and family, of Schuler, visited with Mrs. Hingeburger's sister, Mrs. W. H. Ellis, for a few days, leaving on Wednesday.

Camping above the bridge is a group of girls from Cluny, un-

der the leadership of Mrs. Clark. The camp is one of many conducted by the W. I. throughout the province. They intend to camp for ten days.

Joe Zerk, field expert for the John Deere Plow Co. Ltd., of Calgary, is visiting owners of John Deere binders and combines in this territory.

Master Laurie Mackie of Cranston is spending a week in Arrowwood, visiting his grandparents and other relatives.

Mr. and Mrs. Selgensen and family, of Standard, were visitors at the home of Mr. and Mrs. N. Nissen last Sunday. Eric Nissen accompanied them home where he will visit for a week. Freda Selgensen remained here to visit with Inga.

Mr. and Mrs. F. P. Detter arrived in Arrowwood last week from La Verne, and are staying in Mrs. J. Beagle's house. Mr. Detter is here looking after his farm interests in the district. He states that he is well pleased with crop conditions in this district after what he had seen on route.

The Arrowwood Quartet, composed of Clarence Brubaker, Quinter Hollenberg, Melvin Bowman and Russell Burris, sang two numbers in the Calgary Prophetic Bible Institute service Sunday afternoon. A number of their Arrowwood friends enjoyed listening to these songs as they came over the air. From Calgary the boys went to the Iricana Church of the Brethren where they gave an entire program of gospel songs to a large and appreciative congregation.

Mr. Lewendon, Manager of the local branch of the Revelstoke Sawmill Co. is decorating

the Company's buildings with a fresh coat of paint and is justly proud of his ability to wield the brush.

On Friday afternoon of last week Mrs. D. C. Shoultice entertained at three tables of bridge. Mrs. F. E. Bell carried away 1st prize. Mrs. C. G. Taylor, 2nd.

Forty boy scouts of Oregon and Washington made the first leg of their 8,000 mile trip to Budapest in the Princess Kathleen, Seattle to Vancouver. They are travelling C.P.R. across Canada to Quebec, whence they will sail for England on the Empress of Britain.

Alaska and the Yukon hold their popularity as summer playgrounds judging by the steady list of passengers sailing north to Skagway in Canadian Pacific coastal liners. Many of them are sailing and business men, but the majority are summer tourists attracted by the rate reductions for summer Alaska travel.

### Better Than Expected

As the combines and binders are beginning to hum around the fields, it has been invariably found that the harvest is going to be better than was anticipated and the new grain that has come in is grading No. 1. This seems all the more remarkable when, this territory has had no general rain since May 19th, but it all goes to show that the soil in the Arrowwood district is most productive even with little or no rain during the growing season.

If you have not made any arrangements for a separator, you had better come in and see the one we have. It is a 24x22 Goodison and is ready to go. The price is right.

For your motor you can do no better than to try our Autolene. This oil is making new friends every day and our sales are steadily increasing.

For the convenience of our customers we have installed a phone during the rush season and if we can be of service to you phone 8.

Judge—You are charged with bigamy. What is your defense?

Prisoner—"I am a victim of salesmanship your Honor what with being sold on a two car garage, two telephones in the house, two-pant suits, twins by my first wife, two this and two that, I just got a two complex and thought I should have two wives."

## There is Safety in Numbers

THERE'S nothing that you should be surer of than the food for yourself and your family, for when bacterial action starts in food, it's a menace to health. The way to be sure that food is preserved safely is to pay attention to Numbers.

SCIENTISTS say that food is preserved safely and freshly at a temperature of 50 degrees. That's a number to remember. Put a thermometer in your food chamber, and if the temperature goes higher, than 50 degrees, beware of tainted food.

THAT'S why Electric Refrigeration is becoming more and more popular, as the Thermostat safeguards your food by constantly keeping the temperature below the danger line. It provides constant cold, at a surprisingly low cost. See the Electric Refrigerator model exactly suited to your home at your Dealer's Showrooms today.
